

8th Calgary Science Spelling Challenge

Official Practice List

Welcome, contestants! This guide is here to help you get ready for CSSC, with practice drawn from previous years' competitions. As you work through it, look beyond memorization. Notice common roots, prefixes, suffixes, and other patterns that appear. The more you understand the foundations behind a word, the easier it is to spell. Best of luck, and see you soon!

Easy	Medium	Hard
Adapt	Inertia	Staphylococcus
Pollen	Aberration	Epiphyte
Element	Phalanges	Diacylglycerol
Calculus	Corpuscle	Gneiss
Torque	Miasma	Ischemia
Shielding	Excipient	Zitterbewegung
Isobar	Tuberosity	Naphthalene
Corrosion	Glycolysis	Dinoflagellate
Cardiac	Demyelinating	Eurypterid
Diffusion	Achondrogenesis	Ecdysone
Thorax	Electrophoresis	Helioseismology
Skeleton	Xanthophyll	Orthopyroxenes
Resonance	Chemiosmosis	Erythropoietin
Barometer	Homeostasis	Schwarzschild
Oscillation	Tympanal	Piezoelectricity
